SAFETY IN
LONDON

Introducing the London Health and Safety Group - promoting health and safety in London

Established over 50 years ago and previously known as the London Occupational Health, Safety and Hygiene Group, we're actively concerned with all aspects of occupational health, safety and accident prevention. Our members represent organisations both large and small, throughout London and the Home Counties. A lively Executive Committee, elected by the members, guides the group throughout the year and ensures that their needs are fully catered for.

How can we help you?

By joining the group, you can benefit from the expertise of our members. Many of the health and safety challenges that you face may already have been experienced by our members and you can benefit from their experience. No matter whether your organisation is large or small, by attending our meetings, we can offer you the help and support you need.

Activities

Each season, the group hosts a series of topical presentations and our programme for 2007/2008 appears to the right. Expert speakers talk on a wide range of relevant subjects covering all aspects of occupational safety and health. We are often joined by representatives of the Health and Safety Executive, who pass on up-to-date information and guidance.

Each year, we also arrange an annual visit to an interesting location, to broaden our knowledge of health and safety practical issues.

***17th September 2007
Revitalising CDM - Refit the Pitfalls
- Stephen Coppin***

Stephen Coppin, Head of EHS - Lend Lease Projects looks into what has changed, compared with the old CDM regulations, including responsibilities of the client, the need for due diligence, risk registers, gateways, competence and resources. In this talk, Stephen will examine how value and benefit can be assured by effective monitoring, measuring performance and review.

***15th October 2007
Moving Goods Safely - Colin Preece***

Linking in with European Week for Safety and Health 2007, Colin Preece, General Manager of Pristine Condition, will look at ways to reduce the risk of musculo-skeletal problems by moving goods safely.

***19th November 2007
Behavioural Safety - Simon McDermott Brown***

Simon McDermott Brown of The Quo Group Limited has been working with companies to develop effective behavioural safety management for a number of years. Quo have also worked with RoSPA to develop behavioural safety courses. In this talk, Simon will introduce members to an ABC for safety management.

***17th December 2007
Managing stress at work - Carol Pennington***

Consultant Carol Pennington will explore pro-active approaches to identifying, monitoring, managing and reducing stress at work. Seasonal mince pies will also be on the agenda!

The London Health and Safety Group reserves the right to alter advertised programme content and/or speakers without prior notice. For up-to-date information, please visit our website at www.londonhealthandsafetygroup.org

***21st January 2008
Electro-magnetic Radiation - Dr Simon Mann***

Dr Simon Mann of the Health Protection Agency will explore recent revisions to the Electro-magnetic Radiation Regulations. If you are concerned about the health and safety aspects of power lines or mobile telephone masts, make sure you book this meeting in your diary.

***18th February 2008
Group Visit***

Once more, our annual visit gives members the opportunity to get out to see health and safety in action. This year, we are planning to visit one of the landmark buildings in the City of London. Check our website for more details nearer the time.

***17th March 2008
Improving Safety Performance - Mike Thomas***

Mike Thomas, Managing Director of HASTAM will look at performance measurement as a way of improving safety performance, developing targets and as an aid to front-line management.

***21st April 2008
Group A.G.M. and HSE Report for the Year***

Time for an update from the Health and Safety Executive. We will learn about what the HSE have been working on this year, as well as their plans for next year. The group A.G.M. and a buffet lunch precedes the presentation.

***19th May 2008
Accident Investigation - Roger Bibbins***

At this meeting, RoSPA Safety Adviser Roger Bibbins will explain the role of effective accident investigation as a crucial safety management tool. All the more important with the arrival of the Corporate Manslaughter Bill.
